

Print me for No Print Day! (Wait, what?)

Thanks for taking the National No Print Day pledge! One page is a small sacrifice to make, if it means helping give hardworking trees a day off. Print this No Print Day Kit before October 23rd to make sure National No Print Day goes off without a hitch (or an accidental File-Print).

Make sure no one misses the memo: the Copy button is off-limits.

Cut out these small signs and tape them to your printer's 'start' button

Everyone slips.

Affix this easy-to-remember reminder to your keyboard's P key to keep from breaking your pledge.

Trees are counting on you.

**National
No-Print Day**
